SECTION THREE: Guiding principles and policies

Meeting our proposed transport outcomes would require transformational changes in the ways that we plan and deliver transport, with some methods and activities playing a stronger role than currently. Pages 19 to 25 in the summary version of the draft LTP4 document detail the guiding principles and core policies that we propose would shape our strategic approach and determine how we will plan and deliver all aspects of transport (more detail can be found on pages 47 to 74 in the full version of the document) Please share your thoughts by responding to the questions below.

To what extent do you agree, or disagree, that the following two principles should help to guide decisions about Hampshire’s transport system?
(Please choose one option per row)

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Don't know
Significantly reduce dependency on the private car	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Provide a transport system that promotes high quality places and puts people first	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

SECTION THREE: Guiding principles and policies (contd.)

Assuming sufficient funding, how confident do you feel that the policies within the proposed Local Transport Plan 4 will:

(Please choose one option per row)

	Not at all confident	Fairly confident	Very confident	Don't know
Reduce transport-related carbon emissions to net zero (neutrality) by 2050	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Help create a transport network that is resilient to climate change, extreme weather, incidents and major disruptive events	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Protect and enhance Hampshire's natural and historic environments, resulting in an overall net environmental gain	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Improve air quality and reduce noise disturbance from transport	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Support a connected economy, create successful places, and ensure Hampshire continues to prosper whilst reducing its emissions	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Support sustainable housing and employment growth and regeneration that positively supports the LTP4 vision	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Promote active travel and active lifestyles to improve our health and wellbeing	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Provide more equitable access to services, opportunities and life chances, delivering improved quality of life for all in Hampshire	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

If you have answered **'Not at all confident'** to any of the options above, please provide further details in the relevant box(es) below. Otherwise, please move on to page 13.

Why don't you feel confident that a **reduction in transport-related carbon emissions to net zero (neutrality) by 2050** could be achieved through the proposed policies?

Whilst we can be confident the appropriate policies are included in LTP4, achieving net zero is not fully under HCC's control. Success will also be driven by Government policy and people's personal choices. The policies in LTP4 are necessary for achieving the behaviour change required, but will need to be complemented by policies within other strategies, appropriate engagement and messaging, etc.

If you require any extra space for your response to this question, please write on an additional page and include it with this form.

Please do not provide any personal details in your response.

If you require any extra space for your response to this question, please write on an additional page and include it with this form.

SECTION FOUR: Delivery approach

To support the proposed core policies, we have suggested a range of supporting policies, measures and approaches covering key areas of transport delivery, details of which can be read on pages 26 to 34 in the summary version of the draft LTP4 document (more detail can be read on pages 75 to 116 in the full version of the document). In many cases, these represent a transformation in how we plan and deliver transport in Hampshire.

Please share your thoughts by responding to the questions below.

To what extent do you agree or disagree with the proposed approach to meeting our outcomes in the following areas?
(Please choose one option per row)

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Don't know
Healthy Places	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Public Transport	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Future Mobility	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Balancing Travel Demand	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Rural Transport	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Asset Management	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Development and Masterplanning	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Strategic Infrastructure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

If applicable, how would you suggest our approach should differ from the options proposed? *Please do not provide any personal details in your response.*

Should road user charging be considered / explored as the LTP progresses, we would wish to note that it is our opinion that this should only be considered as part of any national scheme so as to not disadvantage certain areas / increase inequalities etc., which is of particular importance to areas with limited transport corridors.

The integration of land-use and transport planning, and early engagement with developers and transport providers will be an essential means of ensuring development takes place in the right places and has the necessary transport infrastructures / services at the point of occupation to ensure appropriate and sustainable travel habits are able to be undertaken. Whilst this can be embedded within both Local Plans and Local Transport Plans, there must also be mechanisms available to ensure speculative development includes such considerations.

If you require any extra space for your response to this question, please write on an additional page and include it with this form.

SECTION FOUR: Delivery approach (contd.)

Are there any other measures that you feel should be included in the Local Transport Plan 4?

Please do not provide any personal details in your response.

If you require any extra space for your response to this question, please write on an additional page and include it with this form.

SECTION FIVE: Impacts

An Integrated Sustainability Appraisal (ISA) has been undertaken on the draft Local Transport Plan 4. The ISA evaluates the social, economic, environmental, health, community safety and equality consequences of the proposed LTP4 in order to ensure they are fully considered and addressed. The ISA has assessed the draft LTP4 as a whole; detailed assessment of specific schemes will be undertaken at a later stage as applicable. Details of the ISA can be found within the supporting documents at www.hants.gov.uk/localtransportplan.

We would welcome your views on the impacts that have been identified and any impacts that you feel are missing.

Please do not provide any personal details in your response.
