Internal Audit Progress Report 15th September 2022

Paul Somerset, Chief Internal Auditor

1. Introduction

Internal Audit is a statutory function for all local authorities.

The requirement for an Internal Audit function in local government is detailed within the Accounts and Audit (England) Regulations 2015 as to:

Undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance

The standards for 'proper practices' are laid down in the Public Sector Internal Audit Standards [the Standards – updated 2016].

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes

This report includes the status against the 2022/23 internal audit plan.

2. Audit Plan Progress as of 19th August 2022

There are 36 audits in the Audit Plan for 2022/23.

To date, 8 (22%) have been issued, 2 (6%) are in draft report and 3 (8%) are work in progress. Progress against the plan is at a good level for the time of year and there are currently no concerns that the audit plan will not be complete.

Status	Audits

Audit Plan Progress as of 19th August 2022

3. Ongoing Internal Audit Involvement / Covid update

COVID-19

Internal Audit remain involved in assisting the Council with the administration of Covid related grants while also performing assurance work on the grants as and when required by central government. Some grants are built into the audit plan but any new grant related work that is required will be added to the plan.

Internal Audit has provided advice, ongoing reviews and involvement work in the following areas. (For reference, advice is only recorded when the time taken to provide the advice exceeds one hour):

- Regulation of Investigatory Powers Act (RIPA) - authorisations (if applicable) and policy review
- Anti-Money Laundering - policy review
- National Fraud Initiative (NFI) to facilitate national data matching carried out by the Cabinet Office
- National Anti-Fraud Network (NAFN) bulletins and intelligence follow up
- Standards and Audit Sub Board - reporting and attendance
- Audit Planning and Consultation
- Risk Management & Annual Governance Statement

4. Audit Plan Status/Changes

No changes to the plan since the last meeting.

5. Areas of Concern

No new areas of concern since the last meeting.

6. Assurance Levels

Internal Audit reviews culminate in an opinion on the assurance that can be placed on the effectiveness of the framework of risk management, control and governance designed to support the achievement of management objectives for the area under review.

Assurance Level	Description / Examples
Assurance	<i>No issues or minor improvements noted within the audit but based on the testing conducted, assurance can be placed that the activity is of low risk to the Authority</i>
Reasonable Assurance	<i>Control weaknesses or risks were identified but overall the activities do not pose significant risks to the Authority</i>
Limited Assurance	<i>Control weaknesses or risks were identified which pose a more significant risk to the Authority</i>
No Assurance	<i>Major individual issues identified or collectively a number of issues raised which could significantly impact the overall objectives of the activity that was subject to the Audit</i>
NAT	<i>No areas tested</i>

Audits rated No Assurance are specifically highlighted to the Standards and Governance Committee along with any Section Head comments. The Committee is able to request any director attends a meeting to discuss the issues.

7. Exception Risk Ranking

The following table outline the exceptions raised in audit reports, reported in priority order and are broadly equivalent to those previously used.

Priority Level	Description
Low Risk (Improvement)	<i>Very low risk exceptions or recommendations that are classed as improvements that are intended to help the service fine tune its control framework or improve service effectiveness and efficiency. An example of an improvement recommendation would be making changes to a filing system to improve the quality of the management trail.</i>
Medium Risk	<i>These are control weaknesses that may expose the system function or process to a key risk but the likelihood of the risk occurring is low.</i>
High Risk	<i>Action needs to be taken to address significant control weaknesses but over a reasonable timeframe rather than immediately. These issues are not 'show stopping' but are still important to ensure that controls can be relied upon for the effective performance of the service or function. If not addressed, they can, over time, become critical. An example of an important exception would be the introduction of controls to detect and prevent fraud.</i>
Critical Risk	<i>Control weakness that could have a significant impact upon not only the system function or process objectives but also the achievement of the Council's objectives in relation to: The efficient and effective use of resources, The safeguarding of assets, The preparation of reliable financial and operational information, Compliance with laws and regulations and corrective action needs to be taken immediately.</i>

Any critical exceptions found the will be reported in their entirety to the Standards and Audit Sub Board along with Section Head comments
